

A hard asset that performs like a growth company.

Fund the **real estate** for a Caribbean retreat portfolio, then **activate** it with a proven wellness brand, aligned venture partners, third-party hosts, and a shared **technology + AI stack** — capturing real-estate-grade safety with a much higher, activated return.

Per guest / week (platform %)

THREE STACKED RETURNS

1 • Real estate

Caribbean hard assets — lease income, appreciation, optional leverage.

2 • Activated demand

A proven brand fills high-paying retreats (up to \$25K/guest/week); the platform earns a percentage.

3 • Tech & AI scale

A shared stack runs bookings, ops, and partner revenue across every property.

MARKET TAILWIND

\$6.8T global wellness economy (2024) → \$9.8T by 2029

\$1T+ wellness tourism, ~16.6%/yr

#1 • ~24%/yr Caribbean — fastest-growing region for wellness real estate

\$548B+ wellness real estate, the fastest-growing sector

THE NEED

Women: \$360B U.S. women's-health gap unmet (McKinsey)

Veterans: 6,407 suicides in 2022 (~17.6/day), ~15% PTSD (VA)

First responders: ~1 in 5 meet PTSD criteria (USFA/FEMA)

THE PIPELINE & THE RAISE

Three Puerto Rico properties identified at the \$6–7M level, plus a fourth on another Caribbean island — most of the portfolio across the Caribbean. Capital is raised in **\$25M tranches** and deployed with prudent leverage as properties are acquired and activated. Premium retreats collect up to **\$25,000 per guest per week**, of which the fund earns a percentage as the platform and the facility.
